Service guide

TOURMALINE BRUSH - STEP BY STEP

1

Wash your hair with the **Dilater Shampoo - Step 1**, up to three times, if necessary pause until you feel that the strands are rough, indicating that the cuticles are dilated. Blow-dry from 80% to 100% of the hair without combing and divide it into 4 parts.

2

Start the application of the **Anti-Static Repair Defrizz - Step 2** from back of the neck with the help of a brush and gloves, respecting half a centimeter of distance from the root.

3

After the application, divide the hair into strands and align it using a hair dryer, comb or round brush.

4

Divide the hair into 4 parts, separate small sections of strands and flat iron each up 10 to 15 times in order fix the treatment. Let the hair cool for 5 minutes and then rinse.

5

Apply a generous portion of the **Balancer System - Step 3** and pause for 5 minutes. Rinse thoroughly. Finish as you wish. To prolong results, we recommend the Perfectliss Antifrizz home care line for daily maintenance.
